"Year 63 of the Revolution"

Atte. Zola Sapheta

Secretary General of National Education, Health and Allied Workers Union of South Africa.

NEHAWU

Ref: Greeting message to NEHAWU Congress

Esteemed comrade,

Delegates and workers affiliated to NEHAWU receive a fraternal greeting on behalf of National Secretariat of the Central Workers' Union of Cuba and of the Health Workers Union due to the celebration of the 12th Congress, at the moment when the terrible pandemic is lashing humanity and doesn't allow us to attend it.

Cuban workers firmly thank you for your solidarity and support in our historical struggle against the inhuman, economic, commercial and financial blockade imposed by the United States government for more than 60 years, the main obstacle for economic and social development of the country.

We take advantage of this opportunity to ratify the CTC and Health Union will to continue deepening the bilateral relationships on topics of mutual interest through the understanding memorandum and agreements taken during our last meeting as soon as the sanitary conditions allow us.

We wish you a great success to the development of the Congress and we are sure that discussions and resolutions taken will improve trade union work and life of workers and their families.

iA luta Continúa!

Fraternally yours,

Ulises Guilarte De Nacimiento
Secretary General
CTC

Santiago Badía González
Secretary General
SNTS
