

LET'S STEM THE TIDE OF THE CORONAVIRUS

MARCH 2020

In light of the announcement by the President the national union has taken the following decision:

- To cancel all union meetings.
- To cancel all international travel.
- To put together a team that will focus on the outbreak of the virus and plan on how to protect all our workers and staff of the union.

NEHAWU has put in place a remote work plan to reduce the contact risk in workspaces in all our offices nationally, that all staff members have been requested to work home as from the 18th till further notice. Further communication shall follow on the 20th March 2020. During this period, the union will assess and closely monitor the developments within all provinces and shall provide guidance on the next phase. Information will be provided to all staff members, leadership and union members on an ongoing basis.

The union will do its best to maintain accessibility to its members, however, we do appeal for understanding in the event that service levels are not maintained from time to time due to these stringent measures.

We encourage you to continue visit our website and follow us on social media for any union updates, including information on the COVID 19.
