

**SOLIDARITY MESSAGE OF USB
WITH THE NATIONAL STRIKE OF NEHAWU (South Africa)
ON SEPTEMBER 10**

USB expresses its support and solidarity with NEHAWU, South African Healthcare and Public Sector Employees, for the strike on September 10, 2020 against the antilabor policy of the government.

NEHAWU called for many actions and mobilizations from 1 to 3 September and a National Strike on 10 September for improved working conditions, against the dismantling of collective bargaining, against the state's attack on the right to strike, for adequate workplace safety and protection of frontline workers against COVID-19 infections and for provision of personal protective clothing.

USB supports the fair demands of NEHAWU and expresses the solidarity with the mobilizations and the National Strike on September 10

AMANDLA!

Long Live Solidarity!
